

Global Network Operations

AFCEE's Mission: to provide integrated engineering and environmental products, services, and advocacy that optimize Air Force and Joint capabilities through sustainable installations. AFCEE is responsible for management of the Environmental Restoration, Military Construction (MILCON) and Housing MILCON programs for the Air Force. AFCEE executes and manages environmental and construction, environmental operations and services and provides architect and engineering support for installations, Major Commands, Headquarters Air Force and others. AFCEE also provides technical expertise and advocacy across a spectrum of construction and environmental programs.

Case Study: Vista Tech provides administration, operation, and maintenance of AFCEE functional servers, systems, and multiuser computer systems and their associated peripheral devices worldwide to include:

- Administration and maintenance of AFCEE databases that reside on the network
- Administration, operation, and maintenance of AFCEE desktop and personal computers (PCs) including laptops and docking stations for 800 employees
- Help Desk support to Government personnel and contractors worldwide
- Telecommunications support for video teleconferencing, PDAs and Air Cards
- Information Assurance support
- Website programming support to maintain, update, and add functionality
- Support for the Environmental Resources Program Information Management (ERPIMS) System
